---------------	---

Clinic and Treatment Centres.

The Devon County Council Health Clinic at Burvill Street, Lynton provides Consulting and Waiting Rooms for the Local Practitioners, accommodation for Health Visitor, Health Education Relaxation and Dentist/Chiropodist.

The Chest Clinic for this area is held at the North Devon Infirmary, Barnstaple.

Tuberculosis.

Treatment for tuberculosis is carried out at the Hawkmoor Sanatorium near Bovey Tracey.

Venereal Disease.

There were no reports of Venereal Disease. The nearest centre for treatment is at Barnstaple North Devon Infirmary and any cases that occur in this Urban District go direct to Barnstaple.

Ambulance Service.

Responsibility for the provision of an Ambulance Service rests with the County Council and its Health Committee have arranged for this to be provided by the Lynton St. John Ambulance Association.

The Staff consists of one part-time Member, 4 men Volunteers and 7 Volunteer Nurses. The Ambulance is garaged at Cross Street, Lynton. The Hospital Car Service is available on application by Doctors to the Hospital.

#### Isolation of Infectious Diseases.

The nearest Isolation Hospital for Infectious Diseases is the Kingsley Hospital at Bideford.

#### Maternity.

There are three beds for maternity cases at the Lynton & District Cottage Hospital, with a fully qualified staff available. At Barnstaple there is a new Maternity Unit with an additional ward available for cases of difficulty.

#### Ante-Natal and Post-Natal Clinics.

Ante-Natal and Post-Natal Clinics are conducted at the Lynton Cottage Hospital by each General Practitioner in co-operation with the Hospital Staff.

#### Home Help Scheme.

The Home Nursing Service is operated by one District Nurse in conjunction with Nursing and Midwifery duties. In addition, assistance in the home is given by one Home Help.

#### Child Welfare.

The Centre is held at the Health Clinic, Burvill Street, Lynton, and is open on the first and third TUESDAYS in the month, with a County Council Welfare Worker in attendance.

#### Vaccination and Immunisation.

Vaccination and Immunisation are carried out by the General Practitioners of the area and also at the Welfare Centre and the School Clinics.

#### Laboratory Facilities.

Facilities are available for Bacteriological examinations of all kinds at the Public Health Laboratory, Exeter.

#### Water Supply.

The following information regarding the main water supply from the North Devon Water Board's Works at Dean Steep, Lynton has been kindly given by the Chief Engineer (North).

The supply has been entirely satisfactory, both in quality and quantity, and no restrictions have had to be imposed. Bacteriological samples are taken weekly from various consumers taps in the area of the supply and of the 149 samples taken, all proved satisfactory and equivalent to a class 1 piped supply. Samples of bacteriological examinations are not normally taken of the raw water, as this is known to vary from day to day, according to rainfall but, in view of the substantial increase in camping during the Summer season within the catchment area of the stream which feeds the intake, weekly samples have again been taken and indicate the extent of seasonal pollution. Previous reports have contained The Counties Public Health Laboratories' reports on the samples taken from the raw water inlet and the samples submitted after treatment and these examination reports are still applicable.

The supply is not plumbo-solvent and no action is necessary with regard to contamination.

Standpipes from Public Mains are not used in Lynton, supplies being taken direct to all properties. The number of dwelling houses supplied direct from public mains is 545 and the estimated population supplied is 1,584.

Five samples from private supplies in the outlying district have been taken and four samples were equivalent to a class 1 piped supply and one sample showed slight contamination.

A decision has not been made on the introduction of fluoride into the main supply and the views of the constituent local authorities of the North Devon Water Board are still awaited.

#### Sewerage.

The position regarding the proposed scheme for the provision of a sewerage system for Barbrook Village remains the same as 1967 in that the cost of the scheme (£39,366) was unacceptable to the Devon County Council for grant purposes bearing in mind the number of houses that will be connected and future development.

#### Rainfall.

The following figures of rainfall were recorded at Caffyns Heanton during 1968:-

	<u>Inches.</u>
January	5.51
February	1.98
March	3.35
April	3.00
May	3.27
June	5.81
July	4.20
August	2.31
September	6.74
October	5.61
November	3.67
December	5.23
	<u>50.68</u>

#### Swimming Pool.

One Public Swimming Pool exists in the Urban District and is under the control of the local authority. The Pool is sited on the Blacklands foreshore, Lynmouth, and is covered completely by each tide.

A Private Swimming Pool exists adjoining the Tors Hotel. The pool (24,000 gals.) is filled once per year with water from the Town Supply, continuously circulated around the pool by means of a pump, filtered and chlorinated in process of circulation.

#### Public Cleansing.

The collection and disposal of refuse, both from household and trade premises, was made weekly during the Winter months, and twice weekly during the holiday period. Farm houses and dwellings in outlying areas receive, by agreement, quarterly collections.

An order was placed for a new continuous-loading Karrier Ramillies 25 cu. yard refuse collector. It is hoped that this one will come into service in 1969 and that the existing Karrier 10 cu. yard side-loader will be discontinued.

## Rodent Control.

The refuse tip remained free from heavy rodent infestation throughout the year and periodic treatment with Warfarin successfully kept the tip under control. A successful annual treatment of the Council's sewers was carried out in Lynton and Lynmouth.

Complaints of rodent infestation were still received from premises adjoining the river banks.

All treatments and inspections were carried out by the Council's part-time Rodent Operator.
